

fascia café sinks

Veitch Stainless Steel Fascia Café Sinks are particularly suited to the food and hospitality industries, and for commercial situations such as in factories, schools and restaurants. They are required to be installed on top of the joinery carcass, hooking over the walls of the cabinetry below.

Features include a 40mm wet-top fascia, a 50mm dia. PVC waste outlet, tap hole as required, Veitch studded drainer board/s, Large 45 litre capacity sink bowls, and single-piece construction keeping maintenance to a minimum. Brackets are available for directly mounting to the wall, if required (as shown).

All Veitch Fascia Café Sinks are manufactured entirely from 1.2mm Grade 304 stainless steel, are 100% Australian made and are fully recyclable.

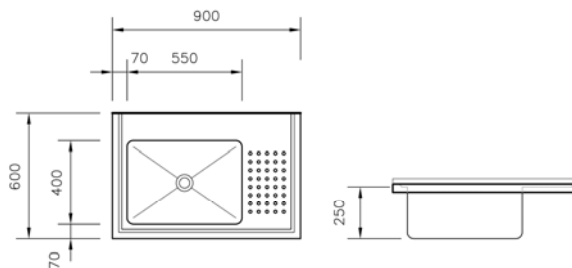

900mm single bowl

Left hand end bowl
