

urinal waste repair kit

The **Veitch Urinal Waste Repair Kit** is used to repair a urinal waste by replacing the outlet cover.

Available to suit 100mm, 75mm, 65mm and 50mm diameter waste outlets, the Kit comes complete with a stainless steel perforated domed cover. A circular crush ring/tube is inserted into the outlet and screwed tight to hold the domed cover firmly in place.

Veitch Urinal Waste Repair Kits are manufactured from Grade 304 stainless steel, are 100% Australian made and are fully recyclable.

Designed & manufactured in Australia.
